

REMARKS

Applicants acknowledge receipt of the Examiner's Office Action dated March 6, 2006. The Office Action rejected all pending claims, except for claims 42, 47, 52 and 57, under 35 U.S.C. § 103 as being unpatentable over U.S. Patent No. 6,477,543 issued to Huang et al. ("Huang") in view of U.S. Publication No. 2001/0005849 filed by Boothby et al. ("Boothby"). Claims 42, 47, 52, and 57 were rejected under 37 U.S.C. § 102 as being unpatentable over Huang and Boothby in view of U.S. Patent No. 6,564,263 issued to Bergman et al. ("Bergman"). In light of the foregoing amendments and following remarks, Applicants respectfully request the Examiner's reconsideration and reexamination of all pending claims.

Applicants have substantially amended the claims. For example, independent claim 1 now recites the act of "determining whether the handheld device has sufficient memory to store the filtered data received from the server." The limitations added to the independent claims are not taught or fairly suggested in the sections cited in the Office Action of Huang, Boothby, and Bergman. As such, Applicants assert that the amended claims are patentably distinguishable over the cited sections of these references.

CONCLUSION

Applicant submit that all claims are now in condition for allowance, and an early notice to that effect is earnestly solicited. Nonetheless, should any issues remain that might be subject to resolution through a telephonic interview, the Examiner is requested to telephone the undersigned.

I hereby certify that this correspondence is being deposited with the United States Postal Service as First Class Mail in an envelope addressed to: Mail Stop Amendment, Commissioner for Patents, P. O. Box 1450, Alexandria, Virginia, 22313-1450, on 8/7/06
